The musical score is written on a single staff in treble clef with a key signature of one sharp (F#). The lyrics are: "his eyes a squint it gives his mas-cu-len-i-ty a shine that does-n't qui - t". Above the staff, guitar chords are indicated: D/f# (above the first measure), Em (above the second measure), C (above the third measure), D/f# (above the fourth measure), and G (above the fifth measure). Below the staff, there are two additional lines. The first line has a C chord below the first measure and a D/f# chord below the second measure. The second line shows a bass line with a whole note G chord in the final measure, with the word "She" written below it.

2. She met him on the plane in 7A
He sat in 7B Jesus Christ he made her day
She fell in love with him before she knew his name
She knew this man would change her life, she'd never be the same
Dangerous

And it's danger that keeps her love alive
And it's danger that gives her passion drive
Each time she says good-bye, she's promised not to cry
And the fear that shimmers though her puts a sparkle in her eye

3. And he's quiet in the telling of a friend who just died
Another pilot shot down newly married to his bride
She leans over to intently kiss his face
As if she's memorizing exactly how he tastes
Dangerous

And when they make love it's like their last
In the silence you can hear their voices catch
And now she's twenty minutes late, she races through the door
She leaves her seat belt dangling, never missed his flight before

4. The sunlight hits her windshield, she doesn't seem to know
About the stop light only four blocks from her home
Dangerous
He's standing at the airport, he's standing at the gate
He can't believe she's had the nerve today to make him wait
He barely made it through alive this time

And it was danger that kept their love alive
But what happens when the wrong one dies
He shakes the doctor angrily, he shakes her once again
He hits the ER wall and he cries out her name
He shakes the doctor angrily, he shakes her once again
He curses at the nurses and he never flies again

It's dangerous, it's dangerous, it's dangerous
