2. This young woman is like a mail box
But she thinks she is the whole world
The moon spins around her each day
And she just sends mail on its way
And while her belly is full of love letters
She thinks of what he'll say
When he comes in real late
She twists the ring on her finger
She twists it three times round
And she wonders why he's strayed
And he wonders why she's stayed
There's a whole lot of wondering going on
And the stallion's eyes reflect the moon
And the moon reflects the ring on her hand
And that's just how it is between this woman and this man
